

The graphic features a large blue arrow pointing right with the text "MOVING PLANET" inside. To its right is a globe with "24 SEPT 2011" written on it. Below these elements is a horizontal sequence of icons: a factory with smoke, a person on a bicycle holding a sign, and a wind turbine. The background is a light yellow map of Ontario. Text on the right side of the graphic provides details about the event, including the date, purpose, and website.

MOVING PLANET

24 SEPT 2011

Green Energy Field Day
Province wide doors open event

A day to move beyond fossil fuels and to celebrate sustainable energy.

Join local environmental organizations, clubs, associations, citizens and student groups in celebration and promotion of sustainability.

Find doors open events in your area or host one yourself. Find out how at: WattsNEXT.ca

Save the Date! September 24, 2011 www.WattsNEXT.ca

Green Energy Field Day Details:

Date: Saturday, September 24th

Submit your event: <http://wattsnext.ca/submitevent>

Find an event near you: <http://wattsnext.ca/events>

Tips for Event Planners:

- Consider having an exciting highlight that will attract people to your event
- Invite local political candidates to your event and let us know if they will attend so we can get the word out and raise the profile of your event.
- Offer at least light refreshments.
- To track attendance, you might want to set up a registration page (www.Eventbrite.com is one example of a great free event registration tool. There are many others too.)
- Prepare takeaways (i.e. gift bags, information kits, other goodies)
